

CUSTOM WOOD DOORS

ON TRACK
GARAGE DOOR SERVICE
480-641-2301

Why choose us?

Our company delivers exceptional garage doors, combining quality materials and expert craftsmanship. We create beautiful doors that enhance your home's style and curb appeal. Whether you prefer classic or modern designs, our skilled team brings your vision to life with meticulous attention to detail and customer satisfaction as our priority. Our skilled carpenters have 20+ years of experience.

Maintenance

To ensure your door's longevity and appearance, a protective finish must be applied within 48 hours of installation. This initial coat shields against moisture, UV rays, and wear. Not doing so will void warranty. Reapply annually to maintain protection and structural integrity. Annual professional servicing is also advised to address any functional issues, ensuring smooth operation. Following these steps can extend your door's lifespan and performance.

Operators

Our professionals assess factors like weight, size, and usage to recommend the optimal motor strength for your wood door, ensuring reliable operation.

Warranty

We guarantee the quality and reliability of our product. We offer a (2) year warranty on materials that defect. A (1) year warranty on labor. Any workmanship problems or issues related to the installation or assembly will be addressed for one year.
